**Your partner for digital
transformation and
custom software**

Company
Deck 2026

“At Workspace, we are committed to providing a premium experience in digital design and development. With a focus on teamwork, leadership, and exceeding expectations, we aim to be a trusted partner throughout the journey.

Ivan Lovrić

CEO & FOUNDER

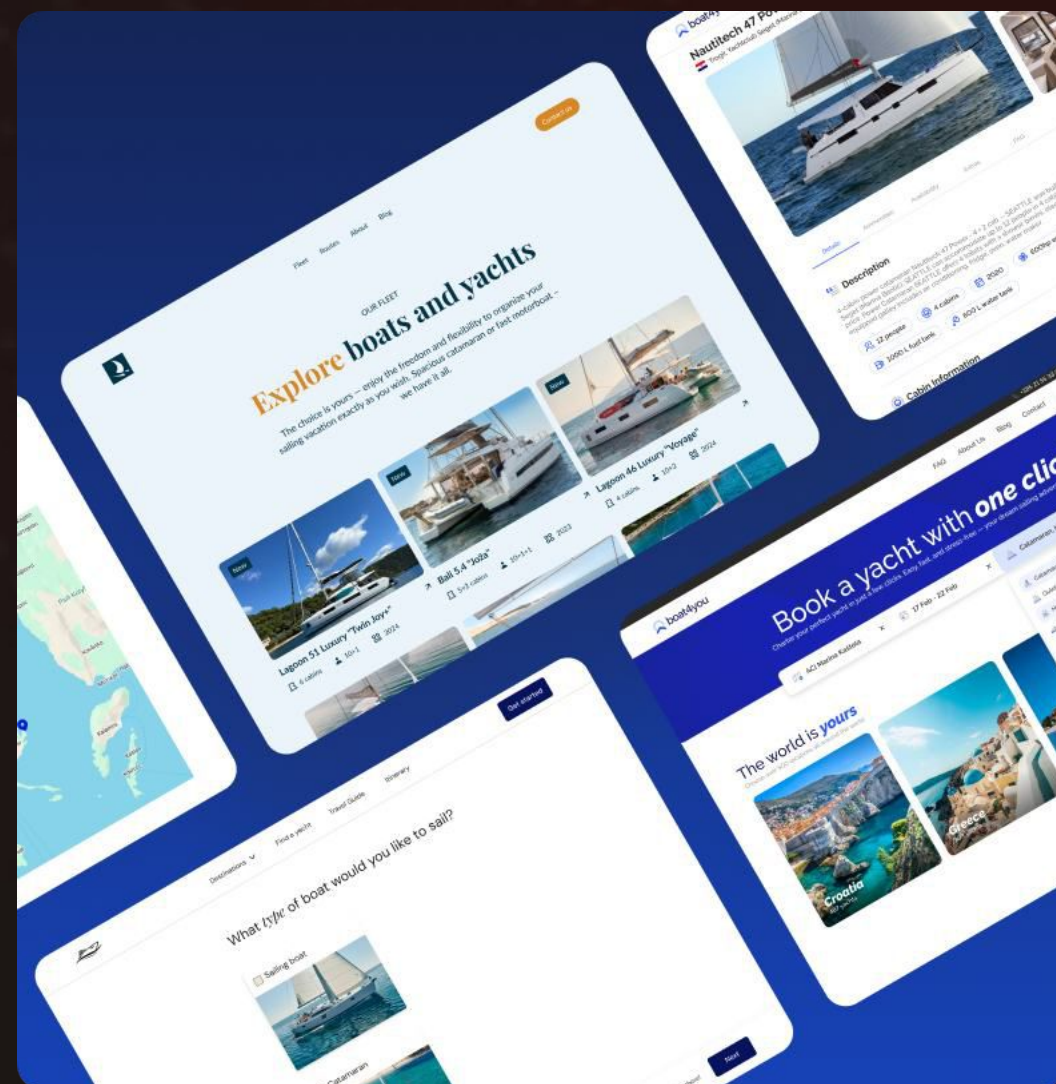

OUR EXPERTISE

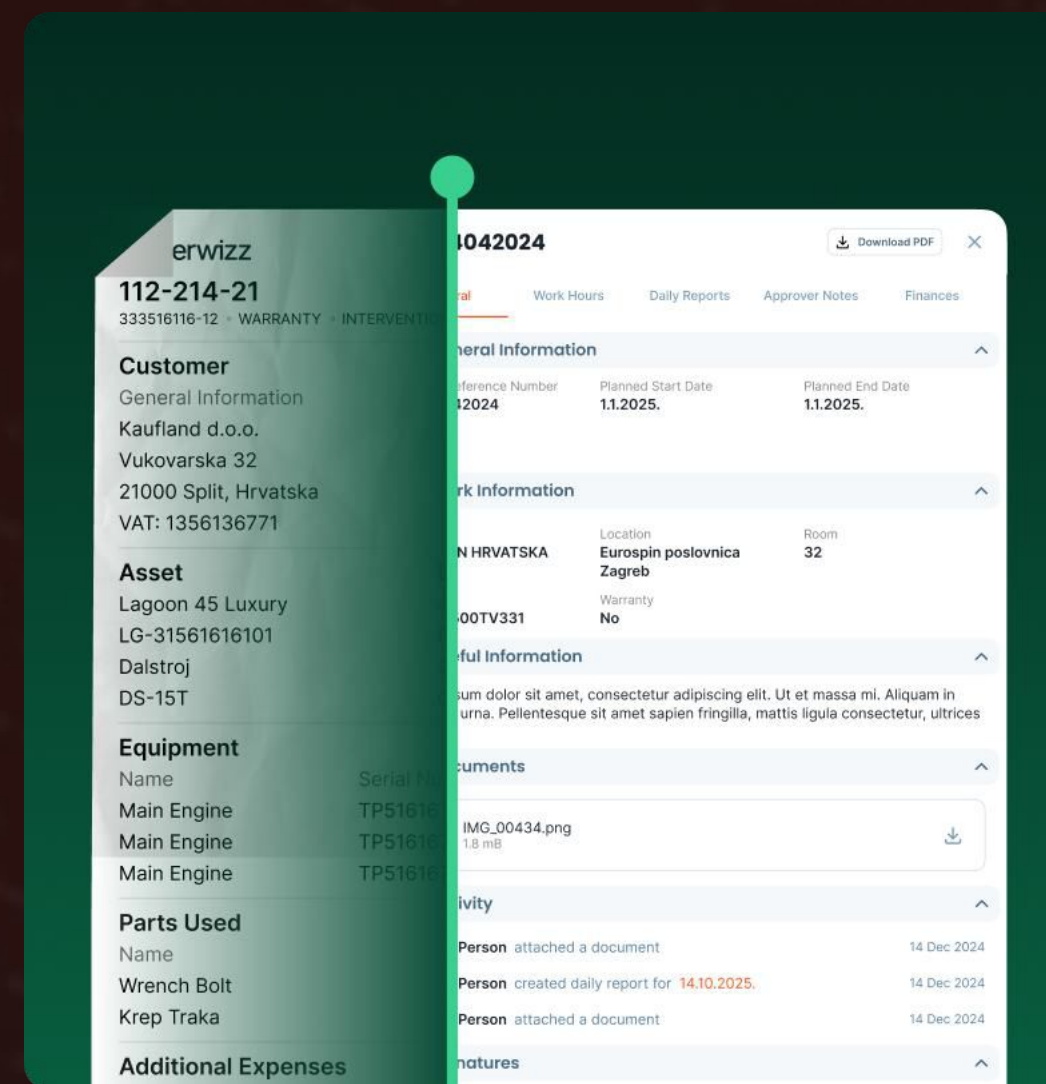

workspace

Core focus areas

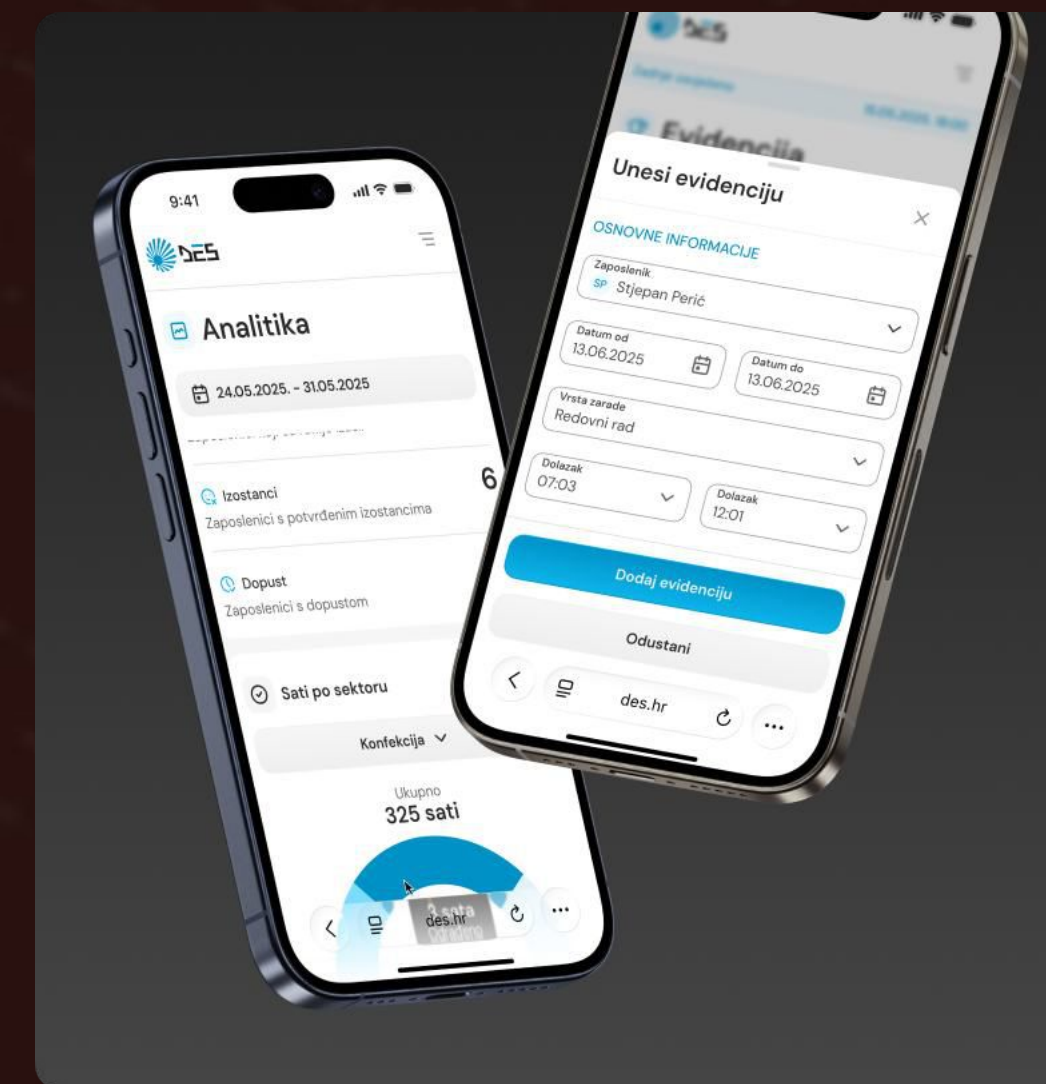

Deep expertise in four domains where we deliver measurable, long-term value.

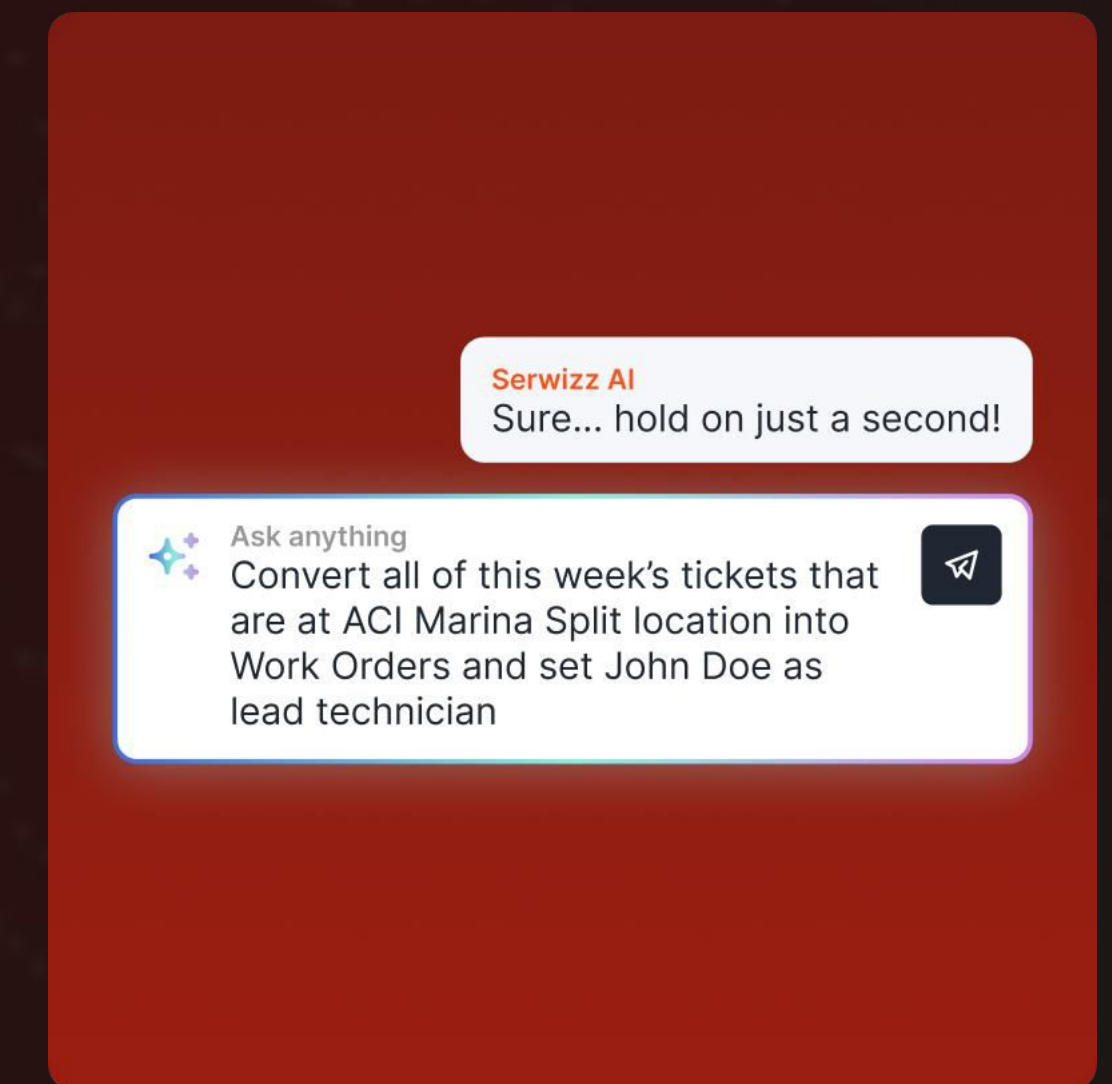

Digital solutions
for yachting & charter

Your go-to partner
in digital transformation

B2B software
for complex operations

Applied AI
inside your product

Applied AI & intelligent solutions

We plan, build, and support the systems behind your operations, so you gain one clear partner for every phase.

AI strategy & discovery

- ◆ AI discovery & prototyping
- ◆ AI strategy & roadmapping
- ◆ AI-assisted software delivery

AI search & knowledge

- ◆ Intelligent search & RAG
- ◆ AI knowledge assistants
- ◆ Natural language data access

AI product development

- ◆ AI-powered product features
- ◆ Generative AI integrations
- ◆ AI agents & developer copilots

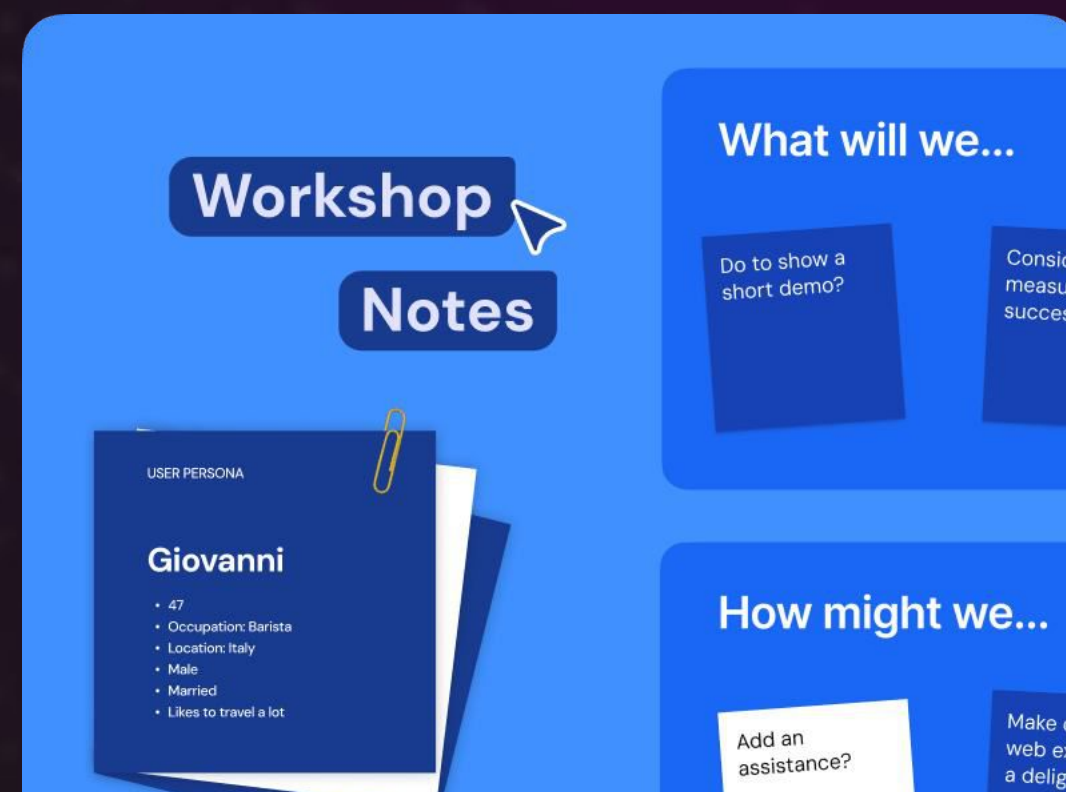

AI-powered automation

- ◆ AI workflow automation
- ◆ AI business operations
- ◆ AI-assisted content operations

Process for building your future-ready product

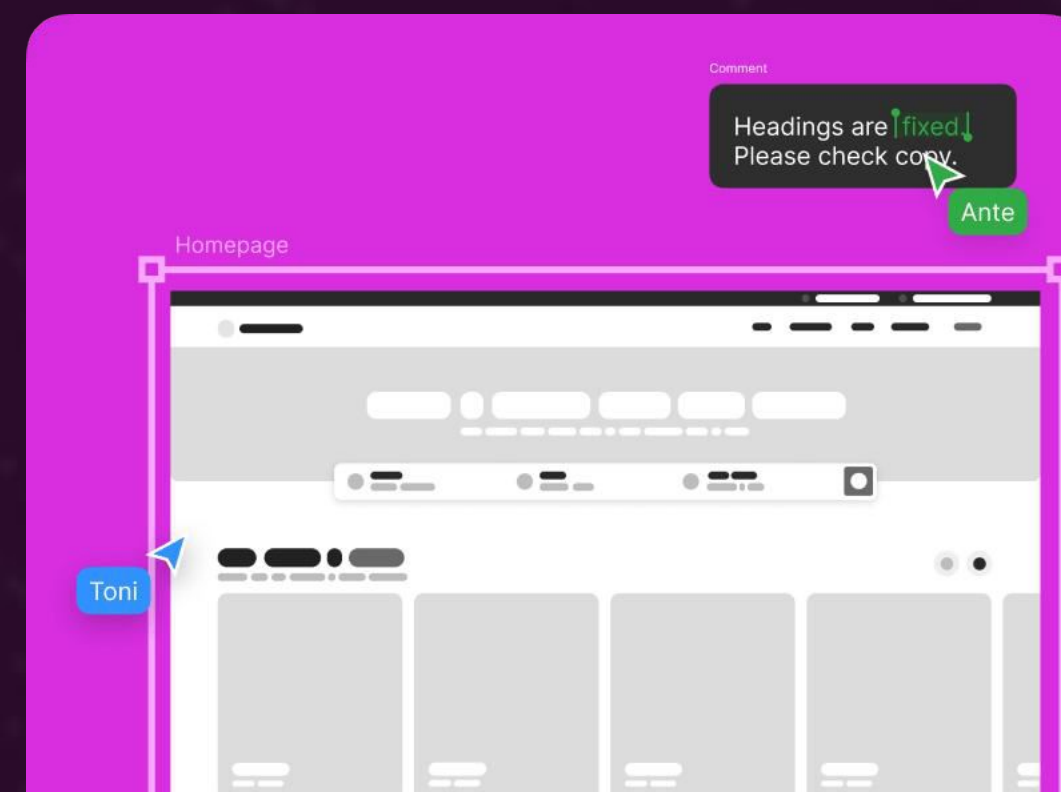

Follow a clear, step-by-step flow for digital products, from discovery and design to development, delivery, and long-term support.

Discovery is where goals get clear.

Discovery defines goals, users, and scope, giving you a clear roadmap and success metrics.

- ◆ Research
- ◆ Workshops
- ◆ Strategy

Design is where ideas take shape.

Design shapes flows and UI, producing prototypes and a design system ready for development.

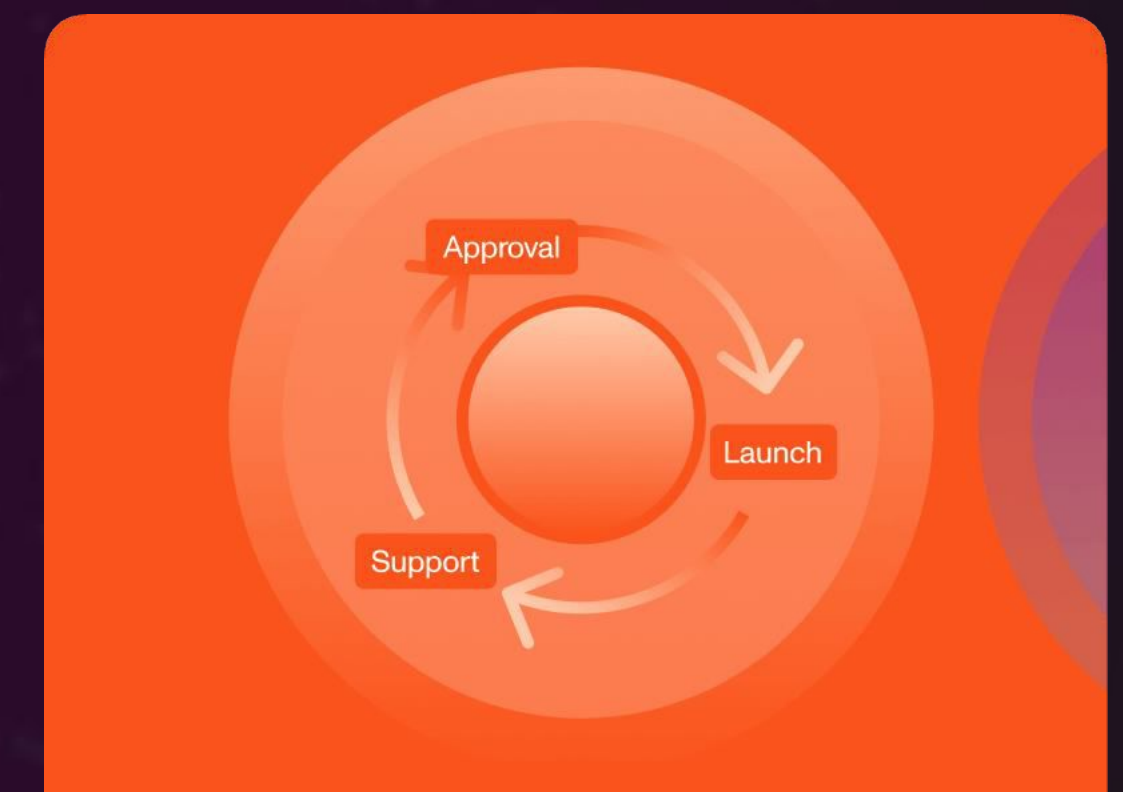

- ◆ Product
- ◆ Creative
- ◆ Motion

Training
Continuous support

The right team for every challenge

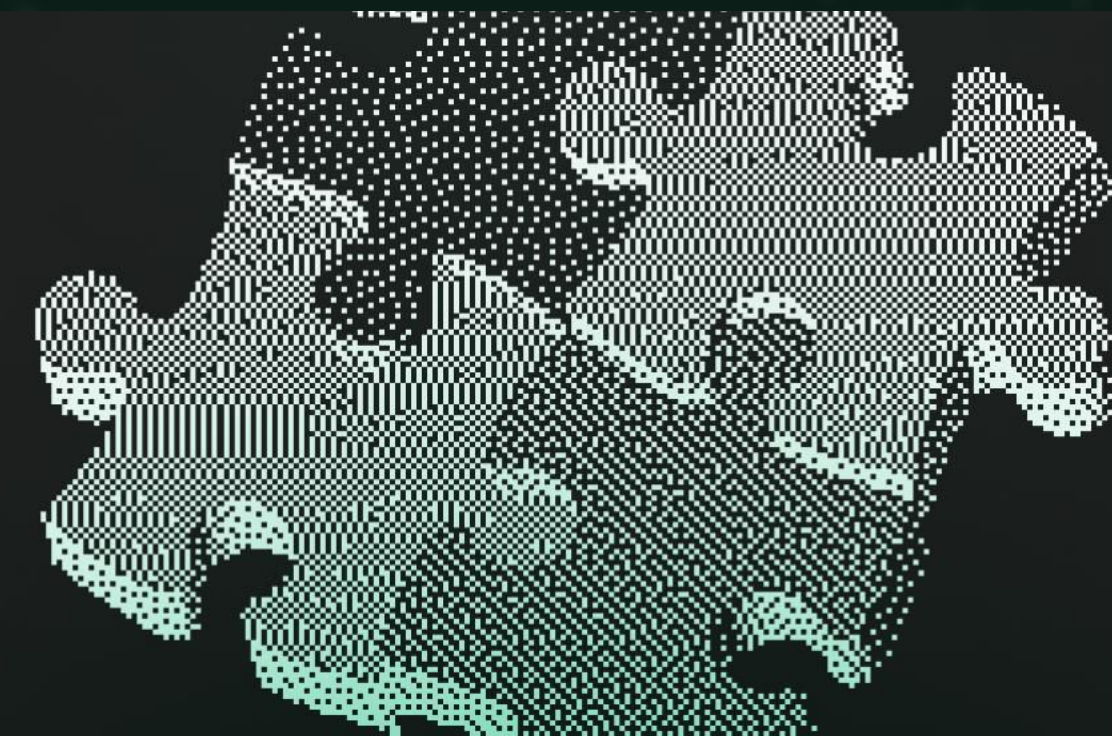

From dedicated project teams to individual specialists, Workspace plugs into your organisation and helps you deliver with confidence.

Project based

A dedicated cross-functional team leads your product from idea to launch. You get a self-managed unit focused on discovery, execution, and delivery with end-to-end ownership.

- ◆ Self-managed cross-functional team
- ◆ End-to-end product development
- ◆ Agile sprints with clear milestones
- ◆ Transparent reporting and risk tracking

Team extension

Developers, designers, and product experts plug into your team to strengthen capacity instantly. This model blends into existing workflows and helps you ship faster without disrupting what already works.

- ◆ Seamless team integration
- ◆ Dedicated specialists on demand
- ◆ Flexible scaling of capacity
- ◆ Daily communication in your tools

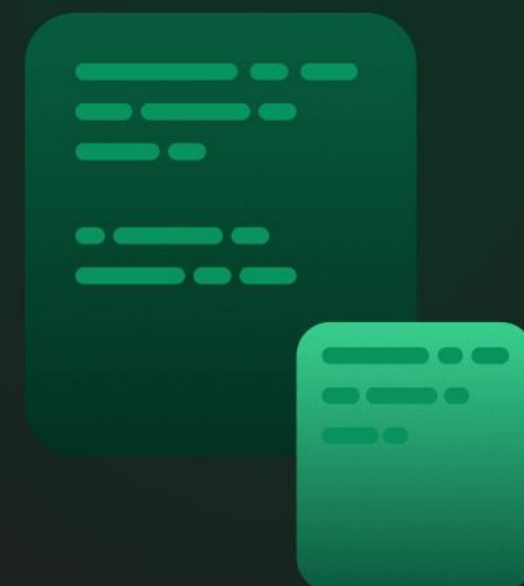

Collaboration process

Great results follow clear processes, so every step is defined upfront.

Initial alignment

- ◆ Intro meeting to understand business goals, challenges, and context
- ◆ Initial review of existing systems, data, and technical constraints
- ◆ Defining project scope, priorities, budget, and timelines

Offer and contract

- ◆ Preparation of an offer with defined scope, services, and pricing
- ◆ Contract review and signing to formalize collaboration
- ◆ Drafting of additional project and legal documentation, if required

Project collaboration

- ◆ Detailed project discovery, solution design, and technical planning
- ◆ Custom software design and development with incremental deliveries
- ◆ Regular progress reviews, feedback sessions, and quality assurance

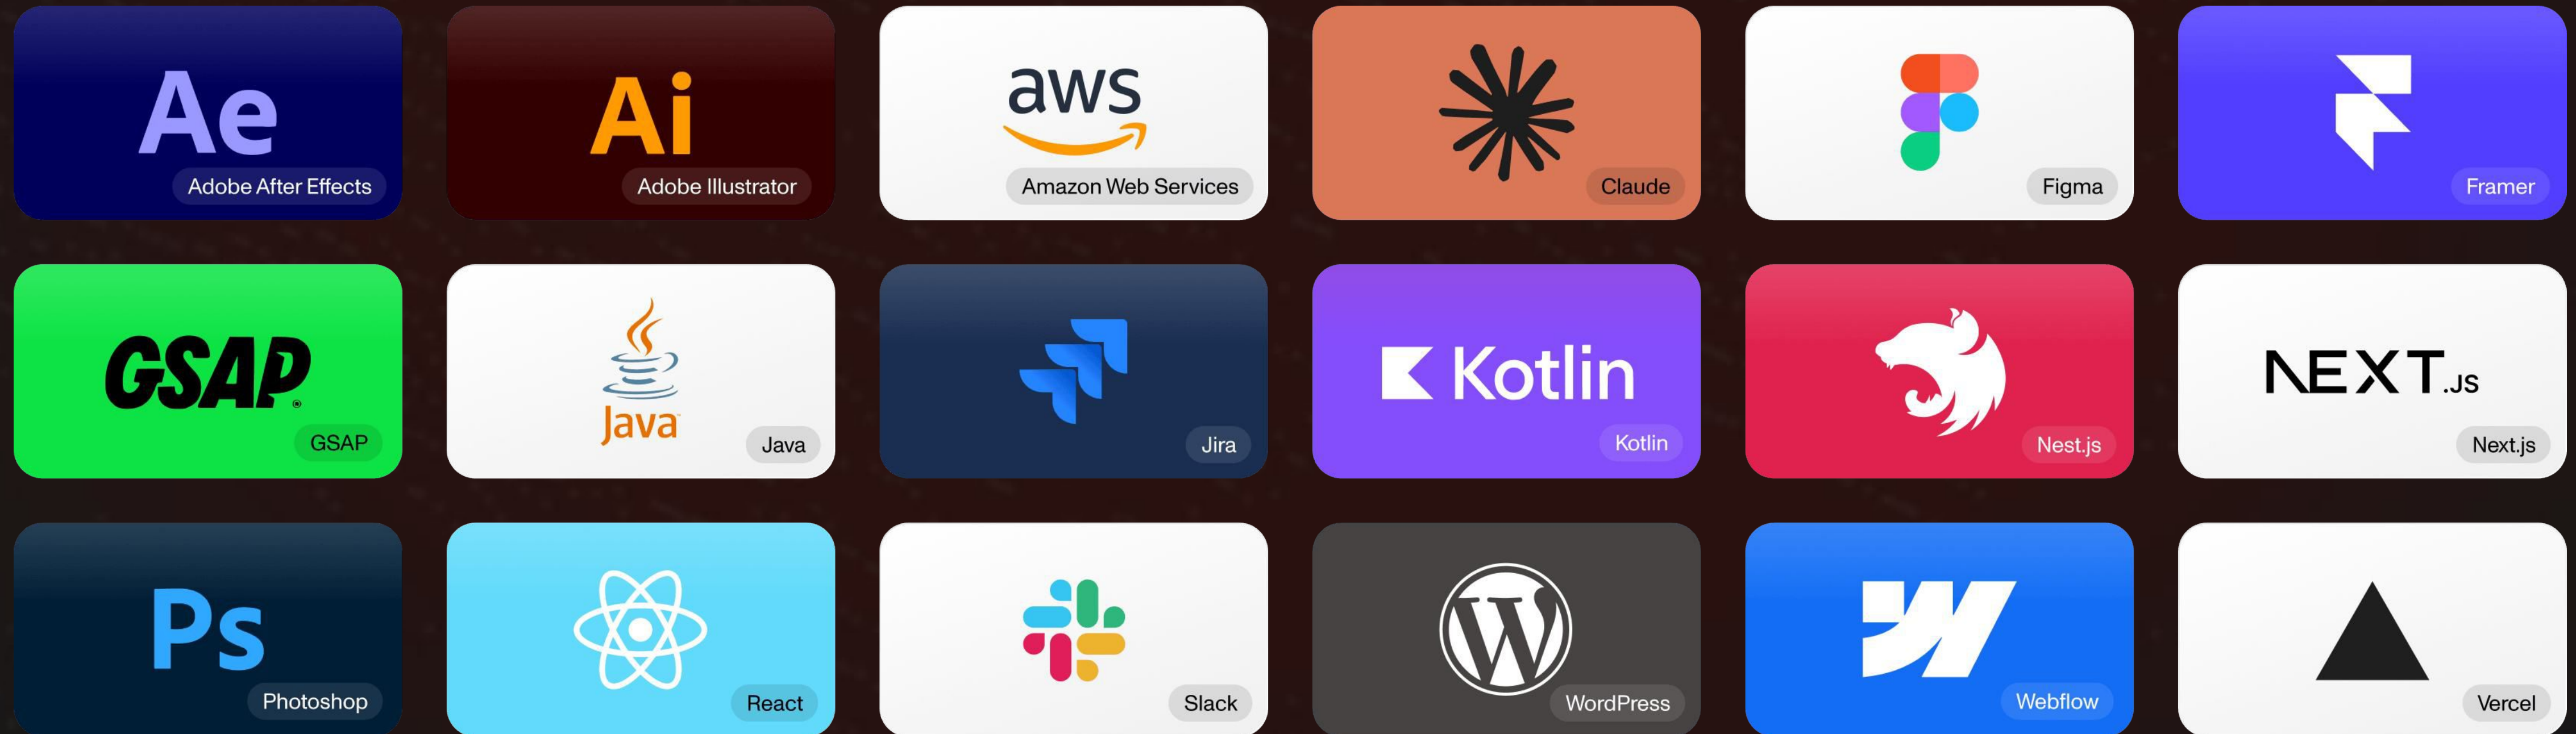

Post-project collaboration

- ◆ Ongoing technical support and product monitoring
- ◆ Bug fixes, updates, and performance improvements
- ◆ Long-term maintenance and product scaling based on agreed terms

Tech stack behind digital products

From prototype to production, this stack supports fast development, strong performance, and reliable scale.

Trusted by product teams

We are proud to collaborate with top companies and industry leaders who motivate us to strive for excellence and innovation every day.

OUR WORK

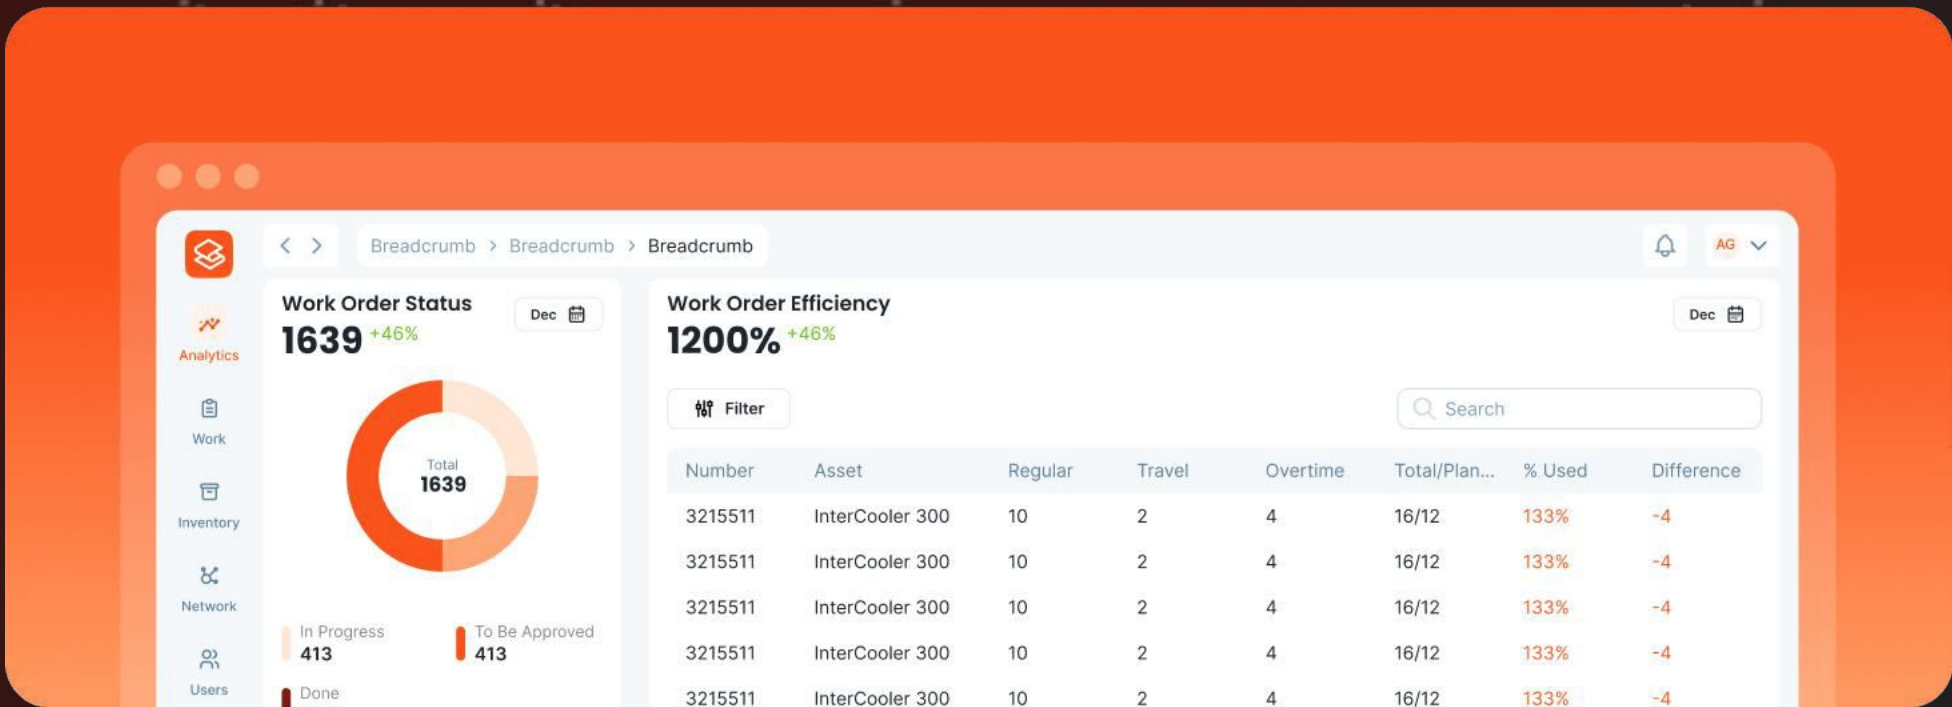

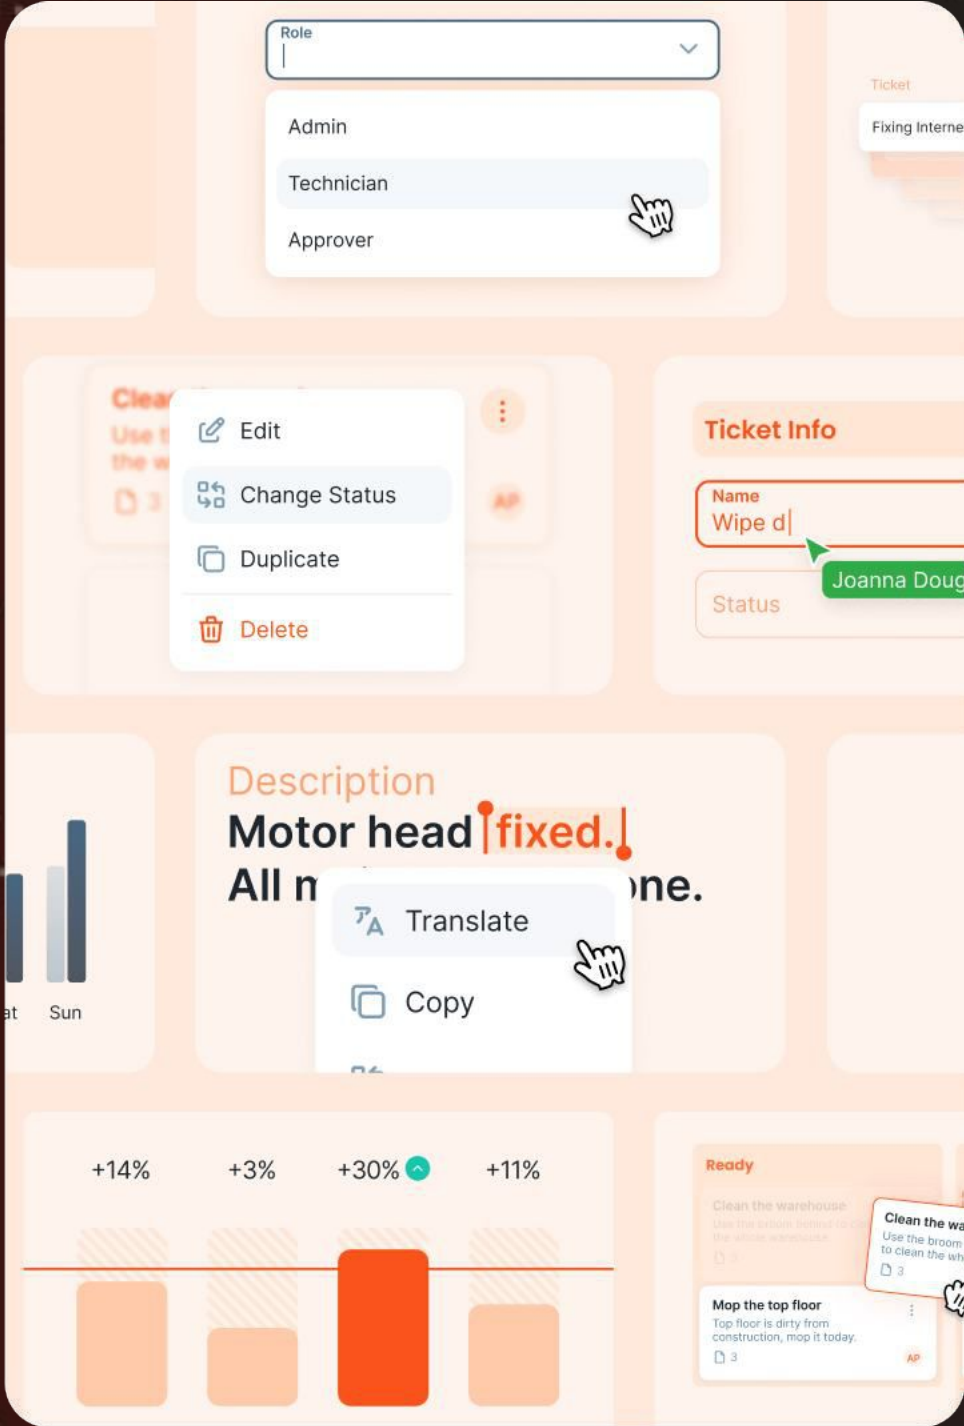

workspace

Serwizz is an in-house CMMS SaaS platform built at Workspace for service and maintenance teams. It streamlines daily operations, connects planning, field work, and reporting in one place, and turns service data into clear dashboards and analytics for better decisions.

Workspace built a new web experience for Cata Sailing, a luxury charter company specializing in sailing vacations. Every detail, from wireframes to the final UI, was designed to reflect the brand's identity and vision. Alongside the digital revamp, Workspace also refreshed Cata Sailing's visual identity, ensuring a cohesive and modern brand presence.

Europe Yachts

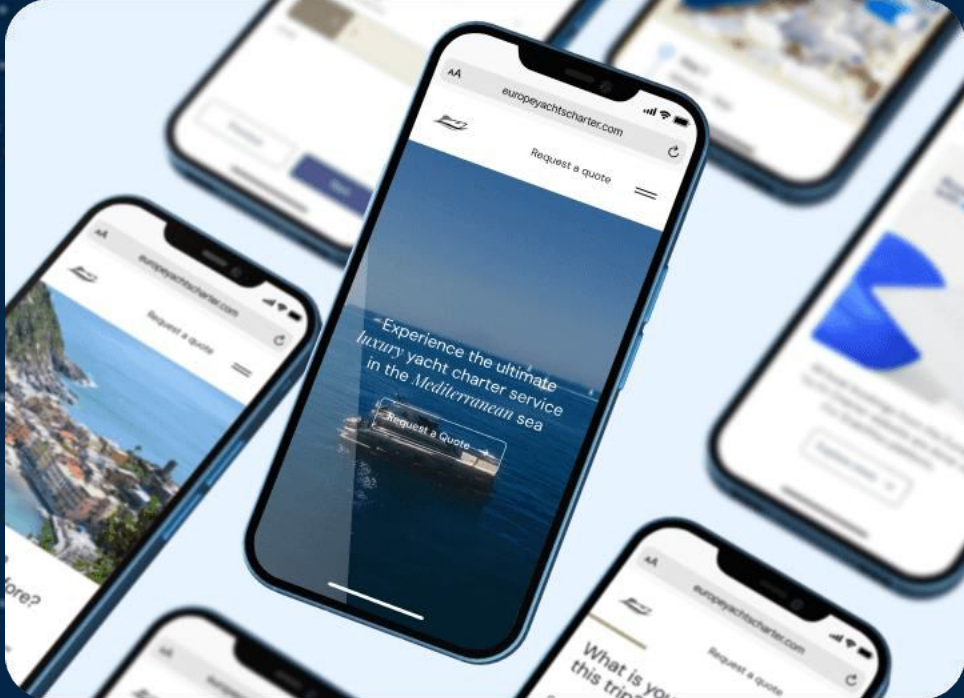

Workspace created Europe Yachts, a luxury yacht charter booking platform that lets consumers find and book crewed yachts in the Mediterranean. The system offers a search function, a booking wizard that walks users through the process, real-time pricing through major charter databases, and browsing by destination.

About this tour

The first stop is a charming fishing village on the island of Šolta. Stone houses, quiet harbours, and the feeling of a place untouched by mass tourism. Take a short stroll, soak in the atmosphere, or simply enjoy the view from the waterfront.

Šolta

The first stop is a charming fishing village on the island of Šolta. Stone houses, quiet harbours, and the feeling of a place untouched by mass tourism. Take a short stroll, soak in the atmosphere, or simply enjoy the view from the waterfront.

Čiovo

The boat then takes you to the island of Čiovo. Away from the busy side, Čiovo hides quiet coves with pine trees reaching down to the water's edge. The boat stops at one of these sheltered bays where the sea is calm and perfectly clear. A perfect spot to swim and enjoy the unspoiled coastline.

Blue Lagoon

The final stop is the famous Blue Lagoon, tucked between Drvenik Island and a cluster of small islands. Turquoise water, rocky islets, and a bay that looks like it belongs in the Caribbean. This is the highlight of the tour. Swim, snorkel, or paddle around the shallow lagoon. The colours have to be seen to be believed.

The boat

All tours run on custom-built **Catago speedboats** with a maximum of 12 guests. Shaded seating area, WiFi, onboard restroom, and everything you need. Because of the small group size, there is more space to move around and relax time on the water.

Two departures daily: morning (09:30–14:00) and afternoon (14:30–19:00). As a result, this tour fits easily into a longer trip or a short city break.
